What Students & Parents Say about PALO....

- “I definitely appreciated the challenge you provided and the individual assignments. The constant flow of assignments kept me alert and forced me not to "slack off". Under this situation I really feared I might get into a "slump" and never recover. You really proved your availability to students and passion to teach. You made a point to respond to every student as quickly as possible.”

What Students & Parents Say about PALO....

- “As parents that want the best education possible for their children, we are pleased to say that PALO fits the bill. Our son not only is receiving a good education, but is enjoying his studies as well. We have nothing but positive things to say about all of our son’s teachers. The online aspect of these classes, and the Centrasessions, work very well overall. Keep up the good work!

What Students & Parents Say about PALO....

- “This is my first year at PALO, after attending school in a district and then being home schooled for the past five years. I didn't know what to expect from an online school, but now that I have completed the two nine week periods, I realize that it is the perfect place for me to get a good education. At PALO, the teachers are always available to answer questions. I also like the flexibility in my schedule. I put in a lot of hours each day and often work in the evening to complete all of my assignments before the weekend. It's nice to know that I do have these two days to get my work done, if I need them. I really enjoy being a student at PA Learners Online!”
