5:30-7:30 pm  
AIU3 Building  
475 East Waterfront Dr.  
Homestead, PA 15120

**Connect + Challenge + Create**

Dear PA LEARNERS Online Community,

The world of education, not unlike the business world, has become increasingly complex and competitive. Schools are compelled to prepare the workforce of tomorrow to meet the needs and demands of employers and industry. Research has indicated there is a national void in the number of students ready to enter the workforce to match those crucial skills necessary to move our country forward in the emerging global marketplace.

PA LEARNERS Online is responding to this national call by restructuring itself to provide a high quality curriculum that addresses the fields of science, technology, engineering and mathematics, while incorporating research, the arts and the Career Education and Work standards. Our new STREAM Academy (Science, Technology Research, Engineering, the Arts & Mathematics) will offer these key subjects in a novel “on location” format, incorporating student-centered, project-based learning activities that will engage students in both online and face-to-face opportunities.

STREAM Academy will begin in the fall of the 2012 – 2013 school year. We are excited about providing our students this unique opportunity to be engaged in the 21st Century skills so necessary for their success. Please review the attached brochure for more information on STREAM Academy.

*Dr. Edward Mandell*

*Dr. Kelly Sherbondy*

*Mr. Paul Cindric*

*Dr. David Martin*

*Mrs. Ann Bisignani*
